

T5 electronic ballast

- compatible with T5 14W,21W,28W,35W,49W
- high power efficiency, EEI=A2
- pre-heating start, life guaranteed 5000 times of switch, ignition time 0.5S
- high power factor > 0.98
- low THD < 10%
- low current crest factor < 1.5, low noise, no flicking
- perfect protection, over-current protection, abnormal condition protection, reliable and safe, EOL。
- cut-off function, improving light efficiency and life of tube
- long life, utilize high quality components, monitor quality during all the procedure, guarantee three years
- complies with CE
- ultra-thin design, potted and sealed structure , dimension: 360*30*21mm
- wide voltage: 180-240V
- comply with CE
